

“INTERNATIONAL CHINESE WIND ENGINEERING FORUM” HELD IN APRIL

Department of Civil Engineering and Wind Engineering Research Center will hold “International Chinese Wind Engineering Forum” at Chueh-Sheng International Conference Hall, on April 2 and 3, 2007. Scholars from the United States, Australia, China, and Hong Kong will come to participate.

This forum serves as the platform to exchange ideas on Wind Engineering, and thereof to reinforce Wind Engineering education and to attract attention from scholars of Civil Engineering to such a field; moreover, the forum provides an opportunity for international cooperation in joint researches. In the forum, there will be paper presentation as well as panel discussions. (~Peiling Hsia)
