

Tamkang Freshmen Serving the Community

Each year, as part of the Tamsui International Environmental Arts Festival, Danshui citizens reenact a play known as the “Legend of Sino-French War” , which depicts a battle that broke out as France attacked China in 1884.

This year, 209 freshmen from TKU’ s departments of English, Spanish, and Japanese served as volunteers during the reenactment of the Legend of Sino-French War. The students split up into seven groups, each of which helped to ensure that proceedings ran smoothly. The groups consisted of a guidance group, a general assistance group, a VIP media group, a traffic regulation group, to name just a few.

Zhan Yueling, a TKU freshman from the general assistance group, noted that “having the opportunity to guide underprivileged people to the site of the play was very rewarding” .
