

Strengthening Ties with Business

On April 24, the Vice President for Administrative Affairs, Dr. Po-yuan Kao, led a group of senior faculty members to visit two leading Taiwanese enterprises. The group consisted of the TKU Dean of Research and Development, Dr. Shung-wen Kang; the Dean of the Library, Prof. Huang Hong-Chu; a manager from TKU' s Office of Research and Development, Dr. Wang Chun-teng; the Director of the Cham Pion Incubation Center, Dr. Shaw Ruey-Shiang, and Director and Editor-in-Chief of Tamkang Times, Miss. Ma Yu-pei.

The group first visited Nuazure Innovative Technology, a client company of TKU' s Cham Pion Incubation Center. Nuazure is an e-book retail outlet with extensive ties to the publishing and telecommunication industries. The delegation then visited Taiwan Creative Development, which is set to soon release a brand new type of set-top box.

Vice president Kao suggested that in the future, the companies could take part in forums and other such events at Tamkang, allowing other students and teachers to also participate.
