

Xi-de Su receives Internship for United Nations

【Reported by Min-hua Wu, Tamkang Times】 First-year master student of the Department of Electrical Engineering, Xi-de Su, received an internship opportunity for the United Nations Office of Outer Space Affairs in Beijing for the summer semester. The international program called UN-SPIDER has an ever adapting platform that processes digital data to evaluate the risks of disasters. This internship program will be a part of Tamkang University' s miniature flight device research, emphasizing the quality of recording. After the unmanned flying device has been developed an academic international exchange will be established. Xi-de stated, "I will bring everything I have learned over the years to the table, in hopes that I can offer them something new and useful."
