

淡江理工學刊入列ESCI

學校要聞

【記者陳瑞婧淡水校園報導】淡江理工學刊（JASE）於18日被正式收入於Emerging Sources Citation Index（ESCI）資料庫。ESCI資料庫是Thomson Reuters自2015年11月起推出的新興資源引文索引資料庫，它進一步擴大了Web of Science（WOS即一般的SCI資料庫）所涵蓋的出版品領域，廣泛納入各種新興科學領域中，高品質、經同儕審查且具區域重要性的出版品。淡江理工學刊從民國87年起開始出刊，以一年出版四期約60篇文章，年投稿量已超過200篇，並且為了維持高品質，來稿接受率約只有三成，現今出刊第20期第三卷。淡江理工學刊總編輯、機電系教授楊龍杰，在本校任職20年，研究專長及授課領域有微機電系統、半導體製程設備等，他分享：「淡江理工學刊在各級長官及教授們的指導與努力下，期盼能盡速被正式收錄至SCI（Science citation index）資料庫。目前淡江理工學刊外部投稿較多，希望本校的老師積極投稿優秀論文，增加學校曝光度。也希望有興趣的同學登入期刊官網<http://www2.tku.edu.tw/~tkjse/index-cn> 進行瀏覽閱讀並投稿。」

The screenshot shows the top navigation bar of the Web of Science website. It includes the Clarivate Analytics logo with the tagline "Trust the difference", a "Site Search" field, and a menu with links for "About", "Products & Tools", "Benefits & Resources", "Training & Support", "News & Events", and "Contact Us". Below the navigation bar, the breadcrumb trail reads "Products and Tools > Multidisciplinary > ESCI". The main heading is "Emerging Sources Citation Index". The text below the heading describes ESCI as a new index in the Web of Science™ Core Collection that expands the citation universe and reflects the growing global body of science and scholarly activity. It mentions that ESCI complements highly selective indexes by providing earlier visibility for sources under evaluation as part of SCIE, SSCI, and AHCI's rigorous journal selection process. The text concludes that inclusion in ESCI provides greater discoverability, leading to measurable citations and more transparency in the selection process. A red watermark "淡江時報社" is visible in the bottom right corner of the screenshot.
